WHITE ZINC PAINT.

After thorough trial in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint.—For whiteness and brilliancy it is unrivaled, it is free from all poisonous properties, and is not dangerous to the health of painters, [illegible] weight, from 40 to 60 per cent more space than lead, and is therefore much cheaper to the consumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases from coal fires or the foul air of ships. These White Zinc ground in Varnish produces the porcelain finish—Their

Brown and Black Zinc Paints

in a few hours form a hard and brilliant coating upon wood, brick, iron and other metal surfaces, and are remarkable for their fire proof properties. They are specially adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints.

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851.

To Professor Holloway,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment, and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep, sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway,

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13 Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from [illegible]

To Professor Holloway,

DEAR SIR,—My wife had suffered from a bad Breast for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER.

CURE FOR HYDROPHOBIA. The following recipe, used by a French physician, is said to be a preventive of hydrophobia:

"Take two table-spoonsful of fresh chloride of lime, in powder, mix it with half a pint of water, and with this wash keep the wound constantly bathed and frequently renewed. The chlorine gas possesses the power of decomposing the tremendous poison, and renders mild and harmless that venom against whose resistless attack the artillery of science has been so long directed in vain. It is unnecessary to add that this wash should be applied as soon as possible after the infliction of the bite. From 1810 to 1824, the number of persons admitted into Breslau hospital was 184, of whom only two died; from 1780 to 1824, into the hospital of Zurich, 233 persons, bitten by different animals, were admitted, (182 by dogs) of whom only four died.

WHIG NOMINATIONS.
FOR PRESIDENT,
WINFIELD SCOTT.
FOR VICE PRESIDENT,
WILLIAM A. GRAHAM
OF NORTH CAROLINA.
FOR GOVERNOR,
William G. Crosby
OF BELFAST.
FOR CONGRESS,
ISRAEL WASHBURN, Jr.

The Nominations.

We have the high satisfaction this morning, of announcing to our readers the distinguished names selected by the Whig Delegates of the Union as candidates for the high office of President and Vice President of the United States.

The name of WINFIELD SCOTT is a household word, deeply fixed in the minds of the American people. His public services and exalted patriotism, through a life devoted to his country's weal, will be now signally appreciated, by his election to the proud position of PRESIDENT of this great Republic. It is not necessary that we should write his history anew, for the enlightenment of the public mind. From the lakes of the North, from the valleys of the West, along the shores of the Atlantic, and the everglades of the South, we shall hear the shouts of gladness, in having a candidate whose name and history is of itself the presage of Victory. We predict for him a civic march into the Capitol of the Union as glorious, as was his triumphant entry, amid the roar of artillery, and the welcome of a brave army, into the city of Mexico.

The Chieftain who never yet lost a battle, whose heroism and valor have shed a lustre upon the page of American history, and whose brilliant achievements in the war with Mexico, startled the despotisms of Europe at the power and progress of this Western Republic, is not destined to be defeated by the votes of those for whom he has suffered and toiled and bled. He will bring to the public councils the resplendent talents and practised industry which are requisite to a wise administration of its affairs.—Guided by no sectional feeling, knowing no North and no South, he will uphold the interests and prosperity of the whole Union, and the rights guaranteed by the constitution, which is the ark and anchor of liberty.

There were of course persons who had their favorite candidates in the Convention. There were presented the names of Scott, Webster and Fillmore. Each and all of whom were worthy to be the chosen standard bearers of the Whig party, but they could not all be nominated, and those who could not be gratified in their personal preferences, will now yield a cordial assent, and use their best exertions in behalf of the PEOPLE'S CHOICE.

We have not, like our opponents, been obliged to abandon all the eminent men who had been named in the public press and popular assemblies, and resort to others, of less renown, and press them upon the country, by the tyrant operation of the party screw.

WILLIAM A. GRAHAM, of North Carolina, is our candidate for the Vice Presidency, and this honor has not been extended to an illustrious and gallant son of North Carolina, without full assurance that it not only meets with the hearty approval of our Whig brethren of the South, but with a conviction that they will respond to the nomination in thunder tones at the ballot box. It is a ticket worthy of the Whigs of our glorious Union, and we predict that on the fourth day of March next, WINFIELD SCOTT and WILLIAM A. GRAHAM, will be inaugurated to the highest offices of honor and trust, in the gift of a free people.

WILLIAM A. GRAHAM, now Secretary of the Navy, was for years Governor of the old North State. He has served in the National Councils, and ever been true and devoted to the country. We shall have more to say of these men, who now bear aloft the standard of the great Whig party.

The Whigs of Bangor manifested their joy upon the receipt of the news of the nominations yesterday, by firing *one hundred guns* at sunset, and fire works, illuminations and ringing of bells were the order of the evening, together with bands of music.

We congratulate the Whigs of the country, upon the nomination now made. It is such as the people, true to constitutional liberty expected and desired. It is received with enthusiasm, and will be elected by acclamation.

HOW IT WORKS.—Before the nomination of the victorious SCOTT, the loco's were kindly indulging in the idea that the mantle of power would fall upon some other distinguished whig. When the news of the nomination came, however, countenances of our opponents fell, something near to zero. They are as fearful of defeat, as were the enemy at Lundy's Lane and Cherubusco.

☞ Sixty-one guns were fired at Ellsworth, at the result of the nominations.

[illegible]

Saratoga.

The place is most [illegible] in the summer season by invalids, [illegible], fashionables of all sorts, and black-legs. The waters, which have [illegible] are supposed to have valuable medicinal qualities—were the original cause of making this a place of general resort. The place has no beauties, of itself, at all to be compared with those of very many places in Maine—and we do not believe that a visit there and the use of the waters would do more for an invalid than a visit to Mount Desert, Castine, Owls Head, Boothbay, or any of the Islands on the coast.—It is true that there are great hotels at Saratoga—got up to relieve you of your spare cash—with servants who will wait upon you if you have any more cash to spare—that there are nightly assemblies where you may "trip the light fantastic," until the morning sun shall warn you that honest people are abroad—that there are all the appliances of innocent and of vicious enjoyment that wealth can provide—but dust, pride and extravagance, after all, are the sum of Saratoga life. A few days spent among the good hearted people of the Islands and shores of Penobscot Bay, will not do [illegible] health more real good than he can get at Saratoga at all. He may not see there the elegant turn outs of a "codfish aristocracy," but he will see what is far better, turnouts of elegant codfish—neither will he have to pay for the benefit of others, seventy-five cents for a dinner of herbs and nothing to top off with. He will have to pay only reasonably for his own enjoyment, and will get his money's worth.

It is true, however, that there is no one place upon our coast where those who desire society and recreation at the same time can resort. No place where there are accommodations for many people at a time. Such a place is a desideratum, and we trust that some one who has the public good as much at heart, at least, as the money lovers at Saratoga, will erect a summer hotel in the most delightful spot upon our coast, for the accommodation of the health and pleasure seeking public.

We would indicate the place if we knew where it is. Some say it is Mt. Desert—some Sedgwick—some Castine—and that certainly is one of the most picturesque spots we know—but whether either or these is the right place we cannot say. Perhaps some of our readers who are familiar with the coast will inform the public.

Kossuth.

The mission of this great patriot to this country is near its close. While here he has labored earnestly and faithfully in behalf of his own nation and of liberty. He has been censured for endeavoring to get our government committed against the intervention of other nations in the affairs of his own—in favor of the great law of "non intervention." But what ground is there for such censure? Has he done more than any true patriot should have done? Had he succeeded he would have nobly achieved, as he honestly believed, the independence of this country. It was a great project—one that only one man in an age, has the courage to attempt. And he set about it with a faith, an energy, a determination, such as has been rarely witnessed in this or any other age, and the prospect was at first, that he would be successful. That he did not succeed, was owing, rather to the belief entertained by the American people, that "intervention" for the purpose of preventing intervention would be a violation of a principle of our government, to avoid all interference in the affairs of other nations, in which our own is not directly interested. Had it not been that this conviction was so deeply seated in the minds of our people, we do not believe that all the efforts of European and American despots combined could have availed to check the tendency of the American mind toward the great (ah) the Magyar had in view. He has done great things however. He has enlisted the *free* American heart in his cause—and he has obtained aid, which may be effectual in enabling him to consummate his great enterprise.

We are glad to find that papers, such as the N. Y. Express that have thrown obstacles in his way, are now beginning to do him justice. That paper, noticing the $90,000 he has obtained, says:

"The great Magyar, it is universally understood has all along given out that these funds are to be devoted to the political redemption of Hungary; and how much however some of our people may be puzzled as to the method of so applying them, we have no doubt, for our own part M. Kossuth will make a judicious expenditure of the 'material aid' when he gets back to Europe. His mission to this country, in a monetary point of view, has been successful beyond all parallel. We do not know of any other public man in the world, we do not care what may be his powers of oratory or elocution, who could come among us, and raise half as many dollars as the Ex-Governor has done."

OUR SCHOOLS.—Strangers frequently take occasion to visit our public schools, to satisfy themselves whether they are deserving of the reputation they possess. It depends much upon where the stranger comes from, as to what kind of an opinion he leaves them with. A highly intelligent gentleman, formerly of the South, visited several of them not long since, and, it is said, remarked, afterward, that he was pleased with the order and apparent progress of the schools, though the plan of putting rich and poor, high and low, together did not strike him pleasantly,—but when his eye fell upon a colored child in one of the schools he was disgusted!

We laughed at this squeamishness, but when we reflect that the gentleman was educated among a people really as exclusive as the nobles of any country in Europe, we are disposed to forgive him, provided he will endeavor to imbibe some republican notions hereafter.

Far different are the views of a lady, who has a high educational reputation and was formerly at the head of a celebrated female institution in the "first state in the world," after she had visited Mr. Howard's and Mr. Littlefield's Schools last week. She saw nothing in the incongruities of station or race, that it could prevent the uniting of children at the same school and in the same class; and her description of pleasure at the [illegible] [illegible]

Levi Cram.

The decease of one who has been so long identified with the business of Bangor, seems to demand something more than a passing notice.

Mr. Cram was at his decease, the oldest merchant in active business, in this city. His business character will furnish a model worthy of the imitation of our young business men. As a systematic, prompt and energetic business man he had among us few equals—no superior. He possessed an active, discriminating mind—a sound judgment, an indomitable will. He was therefore quick to devise and prompt to execute his plans. Combined with these traits of character and that for which perhaps he was most remarkable was his firm, fixed habit of industry. This trait was almost as conspicuous and uniform in his life as the sun in its path in the Heavens. And with almost as much certainty might one find him at his accustomed place of business, as find the Great Luminary of day in his place.

Mr. Cram always felt a great interest in the prosperity of Bangor, and the fruits of his enterprise are to be seen in many parts of the city. Few have done more towards establishing that enviable reputation which our city now enjoys for enterprising talent.

But it is not as a business man alone that Mr. Cram is to be remembered—his social and domestic character are worthy of our respect and imitation. These have endeared him to a large circle of friends and acquaintances who will cherish his memory long after his dust shall have mingled with its mother earth. A.

☞ A petition is at the Merchants' Exchange Room, for signature, praying Congress to make an appropriation for the improvement of the passes at the mouth of the Mississippi. The obstruction to navigation caused by the shoaling of the bars, is a serious evil, and involves large vessels at this season of the year, in a delay of days, weeks, and sometimes months.—The prayer to remedy this serious evil commends itself to the favorable attention of Congress.

We learn from a New Orleans paper that a distinguished officer of the U.S. Engineer corps has made a proposal to enter into a contract to deepen the channel over one of the bars at the mouth of the Mississippi. He proposes to give a depth of at least twenty feet, by the [illegible], at low water, over the shallowest part, and to make the channel wide enough for a tow boat with one ship on each side to pass at all times; to maintain the condition of the bar for twenty five years—when the same process could be again applied—for the sum of $100,000 per annum. The first instalment to be paid only when the depth and width shall have been made. Should the depth of twenty-five instead of twenty feet be obtained, the sum of $125,000 will be paid.

SUN STROKE.—The New York papers record several deaths in that city and vicinity on Wednesday last, from the intense heat of the sun. In situations exposed to the sun workmen were obliged to stop their work and retire into shade. Persons whose avocations necessarily expose them to the sun, cannot be too careful of themselves. A writer in the New York Commercial makes the following suggestion upon this subject, which may be worth heeding:

"In conversation with the lady of one of our commodores who has lately been stationed at Pensacola, where the officers and men were much exposed to the heat of a tropical sun, she told me that they adopted a very simple mode of protection by wearing high crowned hats, in the inside of which they placed a quantity of raw wet cotton, which completely warded off the intense heat. At this season, when we hear daily of deaths caused by *coup de soleil*, would it not be well to recommend our omnibus drivers, and all mechanics and laborers, who are so much exposed, to try the experiment."

☞ The following letter from the Hon. Daniel Webster has lately been received by the students of Phillips Exeter Academy:

WASHINGTON, June 7, 1852.

To the pupils of Phillips Exeter Academy, an elder brother academy presents these copies of an address lately delivered by him in New York.

My brothers! let us do honor to the founder of our academy; let us cherish, affectionately, the memory of the venerable and beloved Benjamin Abbot; and let us labor to repay to the cause of learning what a most excellent institution for learning has done for us.

My brothers, farewell!

DANIEL WEBSTER.

☞ The "Spiritual Telegraph," a paper recently started in New York, as an organ of the so called "spiritual communications," states that Professor Agassiz has sent for Mr. Hume, of Springfield, one of the strongest mediums, for the purpose of seeing what he can make of the spiritual experiments. We hope this report is correct. The [illegible] [illegible] are extending into hundreds of families.—They present phenomena which cannot be explained by any known laws of matter. Hence many jump at the conclusion that they are the work of spirits, and much [illegible] If able scientific men would give the subject a thorough investigation, some rational explanation might be adduced of the cause of these remarkable phenomena.

MORNING SOUP. Dr. James Johnson, in his essay on "Indigestion," has the following excellent remarks upon the influence which the condition of the body has on the mind and heart:

"Many a happy and lucky thought has sprung from an empty stomach. Many an important undertaking has been ruined by a bit of undigested pickle; many a well laid scheme has failed in execution from a drop of green bile; many a terrible and merciless edict has gone forth in consequence of an irritated gastric nerve. The character of men's minds has often suffered from temporary derangements of the body; and thus health may make the same man a hero in the field whom dyspepsia may render imbecile in the Cabinet."

We suppose our Jeffersonian neighbor will not object to attributing the nomination of Gen. Pierce to the empty stomachs in the Convention, and our neighbor of the Democrat will see nothing in attributing the rejection of Cass to that "bit of undigested pickle" without following Dr. Johnson's catalogue down any further.

FIRE ON SHIPBOARD EXTINGUISHED WITH PHILLIPS'S FIRE ANNIHILATOR. A letter from Lieut. A. D. Dundas, R. N., commander of the "Coniapore," gives an account of a serious fire that occurred on board his vessel during a recent homeward voyage from Calcutta, with 300 Coolie passengers. The powder was thrown overboard, and efforts made to extinguish the flames with water, but with little success, when it occurred to the commander that he had a "Fire Annihilator" on board. This was brought and put into operation, and the vapor almost instantly extinguished the flames. There is little doubt that the ship and the lives of all the passengers were saved from destruction by the power of the Fire Annihilator. Commander Dundas [illegible] [illegible]

Empire Water.

Various are the methods adopted by men desirous of doing good, and having their fortunes to make, to catch the eye of the world. Somebody has discovered that the water of the Empire Spring, at Saratoga—recently come into note—contains medicinal qualities that no other water possesses, and somebody has become the proprietor of it, and somebody has undertaken to give it a very innocent notice in a letter to the Boston Traveller—all for the good of the human race.

He writes from Saratoga Springs, under date of June 15, and introduces his subject, by remarking that visitors to the springs are already "gathering from the north and south, east and west. Some to enjoy rest—some to pass away time which hangs heavy upon them—some to indulge in the gratification of the appetite and others for a nobler purpose—to regain strength and vigor in the discharge of future duties.—These fountains are still gushing up, as they have been for years, and sending forth their health-giving, their refreshing waters. They are indeed '*world wide*' wonders." He then proceeds:

"But my special object in writing is to refer to *one* of the *springs* which has more recently come into notice; it is rightly denominated the '*Empire Spring*.' While the other springs are exceedingly valuable in the removal of many diseases, yet they have hitherto failed to reach the case of pulmonary complaints. Hence, it has long been the desire of physicians and friends of humanity to find waters which might meet this case. In the application of the other waters, they have found a tightness of the chest, increase of cough, and general febrile excitement, which forbid the use of the waters in cases of consumption and strong tendency to that disease. To meet this exigency, *Divine Providence*, has furnished the very spring. The '*Empire water*' is freed from this objection. While it has the strengthening and invigorating effects of other springs, it has this other quality—a wonderful adaptedness to lung complaints. Persons diseased with the lungs, persons who have bled at the lungs, have used it safely and with most gratifying results. Hence, the most experienced physicians, those in whose skill we trust implicitly, give their decided testimony to its effects.

Within a few weeks an article has appeared in the '[illegible] Medical Journal,' which I was happy to see. It was written by Dr. L. B. Whiting, of this village. In that article Dr. Whiting writes, respecting the '*Empire water*,' of employing it with the greatest freedom in pulmonary diseases and with the most satisfactory results.' 'The experience of the writer of this article, as one of his patients, can fully attest to the truth of this statement, and I am anxious that others in Massachusetts, suffering with pulmonary diseases, may know the important and beneficial effects of this water. Of its healing qualities, under the direction of a good physician, I cannot doubt, and I would that every one of the thousands in *New England* who are now suffering with this disease, or are tending toward it, might have the benefit of the *Empire Spring*."

We suppose this water is just as good when transported to Bangor, as it is at the Spring, and just as beneficial to the health as the waters of the other springs in its neighborhood. We noticed a quantity of Saratoga Water on the counter of our neighbor, Dr. Sargent, a few days since—whether of the Empire spring or not we cannot say—the virtues of which any one can have an opportunity of testing.

We see now where Mr. Dickinson got his idea that the "old ladies and boys" are so much delighted with Gen Pierce. The benevolent feeling of which, from the benevolent act set forth in the anecdote below, he is indubitably the possessor, will gain him the affections of the former, as much as his extreme generosity will take the eye of the latter.

A CANDY PLATFORM. General Pierce was first spoken of in connexion with the Presidency at the Loco State Convention in New Hampshire some time last winter, and that body adopted a resolution requesting their delegates to bring him forward as a candidate. Governor Steele in addressing the convention expressed his gratification at the selection, and related the following anecdote to exhibit the character of the man." We give it in the Governor's own words:

"'Sir,' said Governor Steele, 'I have known the whole career of General Pierce from the day he first took his seat in the hall. I have admired his exploits in Congress and in Mexico. But I have an incident in my mind which I will relate, which, in my humble judgment, exhibits the character of the man in a more illustrious light than all his efforts in the forum or the field.

"It was something more than twenty years ago (General Pierce was then somewhat younger than he is now) he was travelling through one of the western towns of this State, and as he entered the principal village he beheld three boys eating candy. At a brief distance he beheld another boy sitting alone, and that boy was not eating, but he was crying.—General Pierce feeling interested in so strange a circumstance, inquired into the case, and ascertained that he was crying because he had no money to buy candy. No sooner had he learned the facts in the case, than, with a noble generosity which has ever distinguished Pierce through life, *he put his hand in his pocket, drew forth a cent, bought a stick of candy, and gave it to the boy*, although the boy was a *total stranger* to Gen. Pierce!"

His nomination for the Presidency, taken in connexion with such a remarkable instance of benevolence and unbounded liberality towards an entire stranger, must be another illustration of the proverb that "*good* actions meet with their reward."—Hartford (Conn.) Courant.

Another Warning to Boys.

To the Editor of the Whig and Courier:

I noticed in your paper of yesterday, an accident of the almost fatal result of an altercation between two boys in Hampden. A still more melancholy occurrence took place in Gouldsborough a few days since. Two boys of the ages from 12 to 14, in a game of wrestling fell across a log, and so injured themselves, that one died in about three hours and the other in about three days afterwards.

June 17, 1852.

☞ A few weeks ago a man sold his wife to a farmer of Oakington, Cambs, for £10. As the seller could not get the money, he would not deliver up his wife. She became out of patience and told her husband that she would not be "fooled" about any longer, and that she would go home with the buyer, as she liked him much the best. She then packed up her clothes and followed her purchaser to his house, whither she was escorted by a train of boys beating tin kettles.

25,000 Sold per Year!
The Unsurpassed and Unsurpassable
Bay State Stove,
OF SIX SIZES; of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., or in durability and economy—may be had, as heretofore, at the well known and long established
Stove, Furnace and Range
DEPOT,
Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF,
N. JOHNSON,
Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them, AS I HAVE THEM ON HAND!

A CHALLENGE OF $50
Is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50 I now have on hand in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisite.

☞ The public are specially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is a cheaper and inferior article of thinner and less durable castings, and which is sometimes advertised without the word "Improved" as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers Messrs Eastes & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State,
Granite State, State of
Maine, &c.

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forrest-Queen, &c.—and that very beautiful pattern, of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot, No 15, 17, and 19.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS,

For the Toilet, the Nursery for Bathing, and many Medicinal Purposes

HIGHLY perfumed by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals who make daily use of it in New York, Philadelphia, and Boston.—It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate, soothing sensations and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST—This Balm remedies every defect of the Complexion.

And establishes in its stead Beauty and Health; as the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to its surface all impurities and every species of pimples and blotches, and removes tan, sunburn, sallowness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clean, smooth, and white.

SECOND—It promotes the Growth and increase of the Hair, causing it to Curl in the most natural manner.

It cleanses the Head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTRIFICE for cleansing the Teeth, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and canker, and rendering the teeth as white as alabaster. For bathing, for suffering infants and [illegible]

WASHINGTON, JULY 21, 1840.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

DR. CONINE'S SYRUP OF GINSENG AND MALVA.

THIS Medicine depends more upon its own virtues and actual merit, than any other ever before offered to the public.

The recipe is from Dr. Conine, a gentleman who travelled many years in China, and in the islands of that vicinity, where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

AFFECTIONS OF THE LUNGS.

But what will particularly attract attention, is its astonishing

DISSOLVENT POWER,

by which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

ANTI-EXPECTORANT,

and from attestations of trial here, it is now offered as Nature's kindest remedy for the removal of

CONSUMPTION, WHOOPING COUGH AND ALL COUGHS,

By precipitating the Phlegm instead of creating Irritation by expectoration.

It is aromatic, and induces the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity, in all India, beyond the Ganges, while as an

APPETISER,

It probably has no equal in the VEGETABLE KINGDOM as a

DYSPEPTIC REMEDY,

It is unequalled. Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will appear a more Pleasant, Safe and Effectual Tonic than any Bitters, Wines or other boasted tonic remedy, and even Nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the individual testimonials which we are receiving daily of the good effects of the above medicine, we are allowed to refer to several physicians, who are now using the SYRUP OF GINSENG AND MALVA with great success.

Hear what the Profession say:—

To Messrs. Wilson, Fairbank & Co., 43 Hanover St., Boston:

GENTLEMEN:—After testing your Syrup of Ginseng and Malva, I feel warrantable in stating that I found it to prove the most efficient remedy, which I have yet discovered, for the disease it is intended to alleviate.

Yours, very sincerely,
J. B. McMAHON, Prof. and M. D.

BRANT'S INDIAN PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience and more than a Hundred Thousand Cures of Consumptive Complaints, have proved to the undoubted satisfaction of all persons who have been acquainted with this wonderful remedy, that it is greatly superior, because it is soothing and healing, and more certain to cure Consumption of the Lungs, than any other Remedy in the world. We know, however, that it is said by some that Consumption can not be cured. But that the opinion of the many or the few, we shall not attempt to argue with such: but this we will say and do assert as a fact, which can be proven in thousands of cases, that this medicine has cured Coughs and disease which, before these cures were effected, were called real Consumption, and which were attended with symptoms that resembled, and were in all respects like the symptoms of those who die, and those dead are said to have died with that fatal disease, Consumption. This Balsam has cured thousands of persons who were said to be hopelessly afflicted—who had Hard, dry, racking Coughs—Pains in the Breast, Side, and Back—Difficulty of Breathing—Purulent Expectoration—Hectic Fever—Night Sweats—and wasting away of the Flesh and Blood. Persons having such symptoms have been cured after it was said they could not live a week longer. This Medicine has cured some who were supposed to be in a dying state, but, by the use of this remedy, they now live, and enjoy good health.

This Balsam is purely a vegetable compound. It is pleasant to take, and never does injury in any stage of disease or under any circumstances. It effects its wonderful and almost miraculous Cures by Purifying, Strengthening, and Invigorating the whole system—by equalizing the circulation, and producing a healthy action—thus allaying Cough—soothing the Nerves—and aiding and facilitating Expectoration. It Cures the following diseases, viz:—

Consumption,

COUGHS and Colds, Bronchitis, Asthma, Spitting of Blood, Bleeding of the Lungs, Pains in the Breast, Side, and Chest, Nervousness, Night Sweats, Palpitation of the Heart, and all FEMALE WEAKNESSES and Complaints arising therefrom, Cholera Infantum, &c.

☞ For Proof and particulars of Cures, see our Pamphlets and Handbills—all our Agents have them to give away.

SECRET OF BEAUTY.

HOW TO BE HANDSOME.

[illegible]

104 Nassau Street, corner of Ann, New York—he will send the work by mail or otherwise.

PROOF CERTIFICATES.

Copies of Letters received by the Agent of M. Lavasse.

From Miss A. L. Bennet, of 31 East Broadway, N. Y. The Recipes contained in M. Lavasse's Secret of Beauty, are excellent. The directions for removing freckles are tip top, so also are the instructions about the teeth and gums.

From Mrs. Sarah Lyon, 620 Houston St. N. Y. M. Lavasse's instructions about making the skin fair and smooth are excellent. I speak from my own experience. I am now over 50 years of age, and my skin had become quite sallow and wrinkled. I tried M. Lavasse's system and remedies as printed in his Secret of Beauty, and now my skin is quite fair and smooth.

From Mrs. J. M. Ager, 204 Bleecker St. "I must recommend M. Lavasse's directions for Sweetening the Breath and Beautifying the Teeth—They have been adopted in my family with astonishing success."

From Mr. H. L. Smith, 294 Grand St., N. Y. "I have tried Mr. Lavasse's plan for hastening the growth of Whiskers, Hair, &c. The directions he gives in his Secret of Beauty are worth a fortune to all who want whiskers, &c."

Mr. Stephen Stewart, of Newark, New Jersey, says that his eye sight has been greatly improved by adopting M. Lavasse's directions and treatment for weak eyes. His friends have also tried the system with great benefit.

From Capt. S. T. Sanford, 31 Canal St. New York, "I have been trying your instruction for coloring the hair, and have met with more than I hoped for. The Secret of Beauty is worth hundreds of dollars to all who want the hair colored."

From Miss Kate Townsend, Waverly Place, New York. "The directions M. Lavasse gives for removing superfluous hair are the best I ever tried. His plan is far better than any depilatory powders I know of."

M. Lavasse could fill a large book with testimonials in favor of his different plans for improving the appearance, preserving the teeth, hardening the gums, &c.—His work is the most popular thing ever printed. All ages, classes and sexes unite in its praise. He is selling thousands of copies of his work every month.

☞ The work called the Secret of Beauty gives directions for making and using the different articles advised. M. Lavasse does not prepare them for sale. His time is too much taken up in attending to his vast correspondence. You can send the money by mail for the work, (one dollar.) There is no danger of its being lost. On receipt of the dollar the Secret of Beauty is sent by mail sealed up like a letter, and at letter postage.

Inducements to Clubs.—To accommodate neighborhoods eight copies will be sent for FIVE DOLLARS. Beware of imitations. Address as above.

No person can sell this work without written authority from M. Lavasse.

Great American Remedy.

FOR COLDS, COUGHS ASTHMA, CROUP AND CONSUMPTION.

WHY, Invalids, do you almost invariably overlook the very best remedy for your complaint, in search of something with a foreign or mysterious, or crackjaw name? Half of them are made by quacks, or persons having not a tithe of the scientific and practical knowledge, either of medicine or of the human system, of the author of the above medicine. For dry, hard coughs, and for children with severe stuffed colds, or with croup, it is invaluable; and I challenge a trial of its effects with any Indian, Egyptian, Arabian, English, French, German or any other, foreign or domestic preparation, which is now offered to the public for sale, in all the cases for which it is recommended. It was used by Doct Manly Hardy, its author, for many years with great success.—More than twenty thousand have tried it, and all commend it, then why look farther!
